

Progress Report #4

Team: Six

Project: [Goblin' Ghouls and Ghosts!](#)

Members: Jesse Vasquez, Jozef Gertz, Shane Kelley

Date: November 5th, 2021

The Plan

This time around we didn't hold a group meeting since the plan was fairly simple, so we discussed it in a Google Chat. We still needed some core things that were missing, those things being adding practicality to Resupply and Shipments as well as the remaining Crystal Reports.

The Work

Jesse's Portion:

- Added functionality to Resupply and Shipments.
- Made the Crystal Reports accessible
- Products form now has a different layout depending on who is signing into it.

Jozef's Portion:

- I created the rest of the Crystal Reports for the remaining tables.

Shane's Portion:

- I made the icon for the program
- I made the designs for the Admin dashboard
- Made redesigns for the Products table with the location of the cart.

The Summary

There are still things to complete: The HTML help file, a "Forgot Password" function needs to be implemented, more items for an admin to stock up on, and the tables need to be reworked to include a SupplierName. Also, some other tables would look better utilizing DateTime rather than Date. Other than that, we are on track to getting the program to where it should be for Alpha testing.
